*"Kroz projekat smo naučili šta je to privatni biznis, kako da se započne i kako da se bavimo biznisom, šta je to analiza, šta je to izrada biznis plana. Uključivanje OSI u socijalne projekte je vrlo dobro došlo na području Trebinja i čitave Hercegovine. Sama riječ "uključivanje" govori nam da izađemo, da se ne zatvaramo u kući i čekamo da nam neko nešto da, nego da počnemo sami da stvaramo. O projektu mogu reći samo sve najbolje."*

*"During the project we have learned what a private business is, how to start it and run it, we have learned what is analysis and business plan making. Inclusion of PwDs in social projects is very welcome in Trebinje and entire Herzegovina. The very word "inclusion" tells us to get out and not to close ourselves at home and wait to be supported by someone, but to start making something on our own. I can say all the best about the project."*

"FSU u BiH je prepoznala da u BiH postoje ljudi sa tjelesnim oštećenjem, odnosno osobe sa invaliditetom, koje bi mogle da se uključe u rad, da ih ne trebamo smatrati osobama koje zahtijevaju pomoć, nego da im omogućimo da rade, da se socijalizuju i da pomognu sebi i svojoj porodici. Zahvalan sam da postoje ljudi koji misle o ovoj populaciji. Edukacija je omogućila da OSI prepoznaju svoje potencijale, saznaju kako mogu da dođu do sredstava i pokrenu privatni posao. Bilo bi dobro da se što više ljudi uključi u slične projekte."

"SIF in BiH has recognized that there are persons with physical impairments in BiH, i.e. persons with disabilities who could work and that we should not consider them persons who need help, but to enable them to work, to socialize and help themselves and their families. I am grateful that there are people who think about this category. The training enabled PwDs to recognize their potentials, to learn how they can find means and start a private business. It would be good if more people could get involved in similar projects."
