*"Angažman u okviru ovog projekta za sve nas znači mnogo, svi smo većinom ratni vojni invalidi. Da nema FSU u BiH i preduzeća "Patriot" mi bismo bili na ulici. Ovo je za nas mogućnost da preživimo, da prehranimo porodicu i platimo svoje troškove. Bili bismo najsrećniji kad bismo ostali na ovom poslu dok ne steknemo uslove za penziju."*

Dragan Kopečni, korisnik

*"Engagement in this project means a lot to all of us. If there was not SIF in BiH and the company "Patriot" we would be at the street. This is our chance to survive, to feed our families and to pay our bills. We would be the happiest if we could stay at this work until we fulfill conditions for retirement."*

Dragan Kopečni, beneficiary

*"Veoma mnogo mi znači što sam dobio mogućnost da se zaposlim u okviru ovog projekta, to znači sigurnost i egzistenciju za naše porodice. Na ovaj način zarađujemo i obezbeđujemo staž. To što je u okviru projekta nabavljena nova oprema, kao što su trimeri i kamion, znači kvalitetniji rad i bolje uslove za rad na ovim poslovima. To vjerovatno stvara i mogućnost da ostanemo da radimo i nakon isteka projekta."*

Slobodan Tešunović, korisnik

*"It means a lot to me to get employed within this project, it means security and existence for our families. In this way we are making an income and ensure years of service. The new equipment procured during this project, such as trimmers and a truck means better quality of work and better working conditions. This will probably create opportunities that we stay to work here after the project ends."*
