"Tokom projekta sam bio zaposlen kao fizioterapeutski tehničar. Ovo je moje prvo radno iskustvo. Pružio sam usluge manualne i vibro masaže za ukupno 205 lica. Redovno su mi isplaćivane plate i uplaćivani porez i doprinosi, tako da sam tokom cijelog perioda implementacije projekta bio zdravstveno osiguran i uplaćivan mi je penzijski staž. Moja mjesečna neto plata iznosila je 400,00 KM. Isplaćivana mi je naknada za mjesečnu kartu. Ovo iskustvo je bilo od velike koristi i osnova za dalji rad u struci."

Igor Brković, korisnik

"During the project I was employed as a physio-therapeutic technician. This is my first work experience. I have provided services of manual and vibro massage for a total of 205 persons. I have regularly received salary, with paid taxes and contributions, so during the project's implementation I have had health and pension insurance. My monthly net salary was 400, 00 BAM. I have also received a monthly transportation allowance. This experience was very useful for me and a basis for the professional work."

"Oprema koja mi je donirana putem projekta omogućila mi je da mogu kvalitetnije nastupati na javnoj sceni. Mogao sam se samostalno angažovati na raznim skupovima. U periodu implementacije projekta prijavio sam socijalno osiguranje i pet mjeseci ga plaćao od sredstava koje sam zarađivao na nastupima. Preostali dio prihoda sam koristio za izdržavanje porodice. Iz dana u dan posao se povećava jer je potražnja postala veća."

Bojan Novaković, korisnik

"The equipment I was donated during the project enabled me to perform better and have individual engagements. During the project's implementation and thanks to earnings from the musical performances I was able to pay my social insurance for five months. I used the rest of the income to support my family. My work is increasing every day."
