*"Veoma mi je drago što radim, to čini da se osjećam bolje i da korisno provodim vrijeme. Volio bih da nastavim raditi i nakon što se projekat završi. Učestvovao sam i na okruglim stolovima i za mene je to bilo jedno novo i veoma korisno iskustvo."*  
Ivo Ćorić, korisnik

*"I am very glad to work. It makes me feel better and I spend time in a more useful way. I would love to keep working after the project ends. I took part in the round tables and that was a new and useful experience for me."*  
Ivo Ćorić, beneficiary

*"Kao što je svaki roditelj sretan kada mu dijete počne raditi, tako smo i mi bili veoma sretni kada je Ivo počeo raditi. Bili smo jako zadovoljni što Ivo ima obaveze i jedan dio vremena provodi izvan kuće. Vidjeli smo da je i on bio zadovoljan, te da je stekao malo sigurnosti i vjere u sebe. Hvala svima koji su omogućili našem sinu i koji omogućuju i drugoj djeci sa posebnim potrebama da rade i ne budu zaboravljeni".*

Roditelji korisnika Ive Čorića

*"Just like all parents are glad when their children start to work, we were very happy when Ivo started working. We were very satisfied that Ivo had some obligations and that he was spending some time out of home. We saw that he was also satisfied and that he got some self-confidence. We are grateful to everyone who enabled our son and other children with special needs to work and not to be forgotten".*
