"Nas u domaćinstvu ima ukupno 7 članova. Ja sam ratni-vojni invalid sa 70% oštećenja i nezaposlen sam. Rad u plastenicima mi puno znači za finansijski boljitak, jer mi troje djece ide u školu, a primanja su slaba. Nadam se da ćemo ostvariti prodaju povrća i da će biti prilike da se zaposli još ljudi."

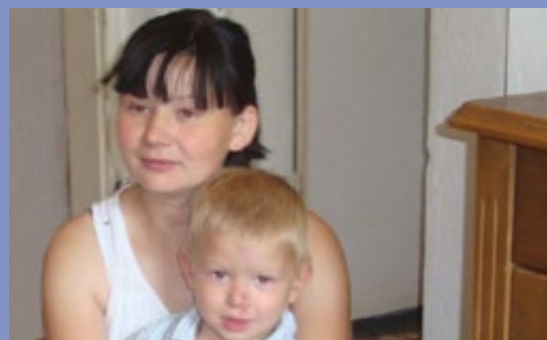

Edin Korugić-Zahirović, korisnik

"There are 7 members in our household. I am a war invalid with 70% impairment and I am unemployed. The work at the greenhouse means a lot for the financial profit since I have three children who go to school, and incomes are very low. I hope that we will be able to sell vegetables and that there will be opportunities to employ more people."

Edin Korugić-Zahirović, beneficiary

"Angažman na poslovima sadnje u plasteniku za mene znači da ću imati malo bolje uslove života i moći da zaradim nešto za svoju djecu. Svaka zarada nam je dobro došla pošto nas u porodici ima puno, plaćamo kiriju, školujemo troje djece a samo suprug radi. Nadam se da će biti još prilika za rad."
Čamila Hadžić, korisnica

"Work in the greenhouse means that I will have little better living conditions and that I would be able to earn some money for my children. Every income is welcome as we are many in the family, we are paying the rent, three children go to school and only my husband works. I hope there will be more opportunities for work."
